

Frequently Asked Questions About the Tourism Infrastructure Investment Program (TIIP) Grants 2013

Who is eligible to apply?

Any organization officially recognized by the IRS as having a non-profit status. Montana Indian tribes, cities and counties are considered qualifying tourism-related, nonprofit groups for the purposes of applying for participation in TIIP.

What is the required match?

The required match is 2:1. For every two dollars of grant money being requested, the sponsor must provide one dollar.

The match must be in "hard" dollars. In-kind services will not be considered as part of the required hard match amount.

Money that has been put toward the project during the 12 months prior to the application deadline (July 2012-August 1, 2013) may be considered as part of the hard match.

What are the grant amounts?

The grants can range from the minimum of \$20,000 to the maximum amount available for the TIIP grants in any given year. The amount of 2013 TIIP Grant funds will be determined by June 2013. Applicants should check with the Montana Office of Tourism in June to confirm the grant fund amount.

How Do I get a TIIP Application?

Contact Montana Office of Tourism's Tourism Development & Education Program, 406-841-2795, FAX 406-841-2871, vbjornberg@mt.gov. Current, updated application forms are available in March of each year. TIIP applications,

guidelines, funding history and other program information is available electronically at http://travelmontana.mt.gov/forms/

When is the application deadline?

Completed applications must be received at Montana Office of Tourism, Department of Commerce, 301 South Park Avenue, Helena, MT 59620-0533 by 5:00 p.m. on Thursday, August 1, 2013. No Late or Incomplete Applications will be considered.

What types of projects are eligible?

TIIP funds are to be used for "brick and mortar" projects. They cannot be used for marketing or ongoing operating expenses. Types of usage that would be allowed include, but are not limited to, project construction costs associated with building new and/or remodeling or preserving existing tourism and recreation attractions, historical sites and artifacts; costs associated with purchasing new and/or existing tourism and recreation attractions, historical sites and artifacts; and equipment purchased for specific tourism project operation.

What types of projects score high?

Projects that score high usually fall into one or more of these three categories:

- 1. Projects that clearly demonstrate their role as a tourism & recreation attraction in their community and region, and the benefits the project will provide through maintaining or expanding this visitor attraction.
- 2. All project funding is in place and TIIP Grant funding will complete a project rather than provide "seed money" to start a project.
- 3. The urgency and need of the tourism-related project is clearly demonstrated (i.e. the proposed project focuses on urgent repairs and/or stabilization to a recognized cultural, historical, interpretive and/or other tourism-related resource that would be lost or damaged without this work).

What types of projects score low?

All infrastructure needs are important and each project application is judged on the merits of the information provided in the application. Projects that retain or attract visitors – out of state visitors and Montanans from outside the community – based upon cultural, historical, or interpretive significance have scored higher than projects where people may stop briefly and be pointed to other attractions in the area. Historically, projects that have scored lower in the process have included visitor information centers, stand alone public restroom facilities, and primarily local use facilities. Lower priority may be given to projects submitted

by state and federal agencies or projects that received TIIP funds within the previous 5 years.

What is the timeline for the selection process?

Applications are due to the Montana Office of Tourism on August 1, 2013. The TIIP committee reviews and scores the applications and makes a recommendation to the Tourism Advisory Council (TAC) at their October meeting. The TAC then makes a recommendation to the Montana Commerce Director who makes the final decision. TIIP Grant funding decisions are usually announced in mid to late October. All applicants are then notified of the status of their application.

How long does the recipient have to invest his grant funds?

Grant funds must be spent within 18 months of signing the contract. Contracts are usually signed in December.

What projects have been funded?

2012 TIIP Grant Awards: \$550,000		
\$25,715	Daly Mansion Preservation Trust, Front Porch Restoration, Hamilton	
\$51,286	Lewistown Art Center, Re-roofing and building upgrades, Lewistown
